EASEM

INVESTOR IN PEOPLE

The Gardtec 350 Control Panel

Ease of use coupled with a sophisticated range of features make the Gardtec 350 the ideal choice in the fight against today's high crime rate.

Introduction

The Gardtec 350 was designed to be a state of the art control panel that had a full range of features but was still simple to use and understand.

The Gardtec 350 gives you a product that is truly flexible with a range of features that are not normally found in products of this size.

Aesthetics

The aesthetics of the Gardtec 350 are designed to blend in with almost all decor and surroundings, thus removing the need to hide the control panel away in a cupboard. The control panel may be mounted horizontally or vertically and two keypad overlays are available for this purpose.

Patent Pending

Features

- Five independent zones.
- 1 Full Set and 3 Part Sets, including silent set options.
- A chime function that can be turned On and Off by the user.
- 50 Event User Log.
- Up to three user codes may be programmed and re-programmed by the Master User.
- Full System may be tested by the Master User.
- Personal Attack activation through the keypad.
- Bell ring times and number of activations are programmable by your installer.

Application

The Gardtec 350 has 5 zones, enough to cope with most domestic and small commercial installations and give you the protection that's required.
